<p>19.PARTS INCLUDED: The CAMSS40EX58 Shelter System includes an all aluminum frame that prevents corrosion, reduces shipping weight and makes assembly faster and easier. The MIL SPEC double overlap cover system tensions down onto the shelter securely using a patented pulley system. Optional items include electric vertical lift truss doors measuring 30' wide by 15' high, an extreme temperature kit as well as a complete electrical system. The electrical system includes a 3-phase distribution panel, quick connect lighting and quick connect outlets.</p> <p>20.DESCRPTION: The CAMSS40EX58 Shelter System is in use throughout Afghanistan and Iraq for large vehicle maintenance shelters. The complete system is compact to ship (463L compatible), fast to erect (does not require heavy equipment), and provides a large working area with the optional electric vertical lift vehicle doors measuring 30' wide x 15' high. The vertical lift door option makes access in and out of the shelter quick and easy for large vehicles. The doors lift up vertically so they don't interfere with interior space and they don't leave an interior area exposed to weather as with baby buggy style doors.</p>
